Innovation applied to tourism business models

Innovation applied to tourism business models

Module: Innovation management in the tourism sector

Subject 1: Innovation applied to tourism business models

Nature: On campus

Mode: Mandatory

Number of academic credits: 6 ECTS.

Time unit: 1st Term.

Lecturer: Nicolás González PhD.

Email: nicolas.gonzalvez@economistas.org

Module Coordinator: Pilar Barra Hernández PhD.

Brief subject description

Innovation in the tourism industry is not a common practice. In fact, innovation has always been linked to other sectors or activities such as research, science, industry, etc.

This module will provide a general framework of “tourism innovation” and how the new information technologies (IT) have influence this industry, using some examples of success companies in different subsectors.

Finally, we will study how these ITs have contributed to the “geo-location” phenomenon. A technology trend especially important and optimize in the tourism industry.

Previous requirements

NOT NECESSARY.

Objectives of the subject

1. Understanding innovation and technological development as important factors for the optimal management of the environment
2. Understanding the innovation concept from a practical point of view, using examples of success in the different tourism subsectors.
3. Understanding the importance of the “management of change” to achieve successful innovative proposals.
4. Reflect the adequacy of innovation processes accordently to the strategy defined by the tourism organization
5. Analyze the technologies of innovation and information from a territorial point of view
