Contents

Unit 1: VAT Accounting

- 1.1. Concept and regulation
- 1.2. VAT accounting treatment.
- 1.3. Exercises.

Unit 2: Inventories

- 2.1. Concept and classification
- 2.2. Measurement
 - 2.2.1. Initial measurement
 - 2.2.2. Subsequent measurement. Valuation allowances
- 2.3. Accounting treatment of packaging and containers
- 2.4. Exercises.

Financial Accounting

Unit 3: Receivables and payables

- 3.1. Receivables
- 3.2. Trade receivables
 - 3.2.1. Initial measurement
 - 3.2.2. Subsequent measurement
 - 3.2.3. Impairments of trade receivables
- 3.3 Notes receivable
 - 3.3.1. Discount of trade notes
- 3.4. Other receivables
- 3.5. Payables
- 3.6. Trade payables
- 3.7. Other payables
- 3.8. Exercises

Unit 4: Non-current assets

- 4.1 Property, plant and equipment
 - 4.1.1. Initial measurement
 - 4.1.2. Subsequent measurement
 - 4.1.3. Specific regulations
- 4.2. Property investment
- 4.3. Intangible assets
 - 4.3.1. Recognition
 - 4.3.2. Subsequent measurement
- 4.4. Non-current assets and disposal groups held for sale
- 4.5. Lease
- 4.6. Exercises

Unit 5: Financial Instruments

Financial Accounting

5.1. Financial assets

5.2. Financial liabilities

5.3. Exercises

Unit 6: Foreign currency

6.1. Foreign currency transactions

6.2. Initial measurement

6.3. Subsequent measurement

6.4. Exercises

Unit 7: Equity

7.1. Concept

7.2. Capital and reserves

7.3. Valuation adjustments

7.4. Subsidies, grants and bequests

7.5. Exercises

Unit 8: Provisions

8.1. Concept and types.

8.2. Accounting treatment

8.3. Exercises

Unit 9: Accounting result

9.1. Accruals

9.2. Income tax

9.3. Distribution of profits

9.4. Computer-assisted accounting

9.5. Exercises

Connection with other subjects of the study plan

The subject financial accounting is supported by Fundamentals of Financial Accounting, therefore it is very important to have a good command of this subject. The subject provides solid foundations for the rest of the subjects in the accounting module.

- Fundamentals of Financial Accounting (Basic training)
- Corporate Accounting (Obligatory)
- Corporate Accounting and financial statement analysis (Obligatory)
- Auditing (Optional)

Sistema de evaluación

February/June Call

Written exams: 80%.

There will be two exams with theory-practice questions and the solving of assumptions about the contents studied. First exam is worth 35% and second exam 45% of the total grade.

Student's involvement in training activities: 20%

The student's involvement in the training activities that conform the subject will be assessed through the issuing and correction of the exercises, tasks, case studies and problems carried out individually and in groups; the public presentation of some of these tasks.

It will be taken into account the use of different sources of information, by means of a task, by following a formal scheme to develop in depth a current topic, previously proposed by the teacher, associated to the knowledge acquired.

September Call:

The assessment system will be maintained as in the February call.

Rating system:

According to art.5 of RD 1125/2003, students will be graded according to the numeric scale from 0-10 with a decimal. A qualitative grade can be added:

- Fail (SS) 0-4,9

Financial Accounting

- Pass (AP) 5,0-6,9
- Good (NT) 7,0-8,9
- Distinction (SB) 9,0-10

The "Honors" mention can be awarded to students with a degree of 9,0 or higher. Honors cannot be awarded to more than 5% of a class students each academic year. For classes with less than 20 students a mention will be awarded.

Study recommendations

Attendance to classes is fundamental for the correct understanding of the subject, daily study of all contents explained in order to ask doubts that may arise during the study.

Didactic material

It will be necessary to have a PC with all the necessary programs installed (text editor, spreadsheet, presentation tools, etc.) We also recommend students to use memory devices (USB, CDs or DVDs) to make easier the interchange of information in presentations such as Power Point, exercises, case study, etc., during the face-to-face classes. We also recommend the use of calculator and access to the Internet.

It is necessary to bring to class all theory and practice documentation loaded by the teacher in the virtual campus, calculator and accounting chart.

Tutorials

Academic tutorial:

These tutorials have the aim of consolidating knowledge and abilities taught in the classes of the subject, at the same time will help to solve problems and doubts asked by the students. There will be an assessment and follow up of the different tasks in order to contribute to the understanding of the subject methodology and systems of assessment.

Personal Tutorial:

The university also has a Special Team that have tutorials with the students enrolled in the degree. All students registered in UCAM have a personal tutor from the Special Tutors Team, when they register for the first time in the university, hence the student has this accompaniment during the complete university period. Criteria and aspects can be consulted in:
