STUDENT PROFILE

Students interested in joining the Degree of Dentistry at UCAM Catholic University of Murcia must demonstrate skills in basic sciences, such as Biology, Chemistry and Physics, and **manual dexterity with a developed power of observation, care and analysis**. Also, they should express interest in the problems of oral and general health of human beings and be willing to help, showing a clear commitment to service.

“The main thing I like about my program is that **it's very hands-on, and we get to do a lot of clinical studies and see many patients**, which is a great experience.”

Jaedan Bangbol Sangma, *student of Bachelor's Degree in Dentistry.*

They must also have good study habits, organization, and the ability to act in **emergency situations**, ability to **work in teams**, both through **clinical events** and **projects for Dental Research**; Skills to establish interaction, listening and understanding with the patient and have the ability to adapt to changes, especially in new techniques used in dental practice.
